

**PUBLIC CALL FOR HIRING VISITING TEACHERS, BRAZILIAN OR FOREIGN, THROUGH
A SIMPLIFIED SELECTION
PROCESS NOTICE N.º 11/2024-PROPESP/UFAM**

The UNIVERSITY OF AMAZONAS FOUNDATION, via the OFFICE OF THE DEAN OF RESEARCH AND POST-GRADUATE STUDIES makes public, for the knowledge of interested parties, the simplified selection process for the hiring of visiting professors, Brazilian or foreign, to meet a temporary need of exceptional public interest. This event is governed by the following normative instruments: Law No. 8.745/93 and its amendments; Decree No. 6.975/2009; Decree No. 7.485/2011, updated by Decree No. 8.259/2014; MEC ordinance No. 243 of 03/03/11, published in the Official Federal Gazette on 04/03/11; Interministerial Ordinance No. 399, of 12/13/2016, published in the Official Federal Gazette on 12/13/2016; Law No. 12,772/2012 and its amendments; SRH – MP normative guidance No. 05 of 10/28/2009; Resolution No. 022/2021 – CONSEPE of 10/13/2021.

1. REGARDING THE POSITIONS

1.1. This selection process is aimed at hiring **35 (thirty-five) visiting professors (Brazilian or foreign)** to work with the Post-graduate Programs of the Federal University of Amazonas, according to the specifications contained in Attachments I and II of this notification.

1.2. Among the activities to be carried out are:

1.2.1. Act as a support to the development and improvement of the post-graduate programs;

1.2.2. Support the academic units in the improvement of their stricto sensu post-graduate programs (master's and PhD) and strategic institutional development projects;

1.2.3. Contribute to the improvement of teaching, research and extension programs, as well as to the execution of teacher training programs;

1.2.4. Enable the participation of high-level researchers and professionals in the teaching teams of the institution, aiming at the scientific, technological exchange and innovation to be developed in accordance with the legislation in force and the Institutional Development Plan - IDP.

2. REGISTRATION

2.1. Period: 18/03/2024 - 29/03/2024.

2.2. Registrations will be exclusively via the institutional email of the post-graduate programs offering the vacancies according to Attachment II.

3. DOCUMENTATION REQUIRED FOR REGISTRATION

3.1. To register for the selection process, the interested party must present:

I. Application form duly completed and addressed to the Coordinator of the Post-graduate Program offering the vacancy, which can be found in Attachment III of this notification.

II. One copy of your curriculum vitae in digital format in (PDF format in single file), containing the list of qualifications, intellectual production and academic activities developed, accompanied by the appropriate evidence. For academic qualifications, copies of diplomas and/or certificates must be submitted.

III. Individual work plan (IWP) of the activities to be developed in teaching and research with the corresponding Post-graduate Program. The IWP must be sent in a single Pdf file containing up to but no more than 30 pages.

IV. Proof of payment of the registration fee via the payment slip, or proof of exemption for those who have had their request for exemption granted, in accordance with item 5 of this notification.

3.2. The information provided in the application form is the sole responsibility of the candidate, with the University of Amazonas Foundation having the right to exclude from the selection process those who fill it in with incorrect, incomplete or erased data, as well as if it is found, at any time, that the data provided is untrue. Under no circumstances will conditional applications be accepted.

4. REGISTRATION FEE AND INFORMATION FOR THE ISSUING OF THE PAYMENT SLIP

4.1. Registration fee: R\$200,00 (two hundred Brazilian Reais).

4.2. The payment of the registration fee must be made through the payment slip that can be generated via the site <https://pagtesouro.tesouro.gov.br/portal-gru/#/emissao-gru>. For filling in the payment slip, please use the following:

- I. Unidade Gestora – UG: 154039;
- II. Gestão: 15256;
- III. Nome da Unidade: Fundação Universidade do Amazonas;
- IV. Código do Recolhimento: 28832-2;
- V. Descrição do Recolhimento: Serviços Educacionais;
- VI. Número de Referência: 0250463924;
- VII. Competência: **03/2024**;
- VIII. Vencimento: **29/03/2024**.

4.3. Once the application has been made, there will be no refund of the amount paid, except in the case of cancellation of the selection process.

5. EXEMPTION FROM THE REGISTRATION FEE

5.1. There will be no total or partial exemption from the payment of the registration fee, except for the Brazilian candidate who, cumulatively:

5.1.1. Is registered in the Cadastro Único for social programs of the Federal Government - CadÚnico, as per Decree No. 6.135, of 26/6/2007; and

5.1.2. Is a member of a low-income family, as per Decree No. 6.135, of 2007.

5.2. An exemption from the payment of the registration fee will not be granted to candidates who do not have the Social Identification Number – NIS already identified and confirmed in the CadÚnico database, on the date of their request.

5.3. The exemption from the registration fee may be requested in the period from **18/03/2024** to **20/03/2024** via the institutional emails of the post-graduate programs offering the vacancies, as found in Attachment II.

5.4. Applications for exemption without indication of the Social Identification Number – NIS and, also, those that do not contain sufficient information for the correct identification of the candidate in the database of the CadÚnico will not be analyzed.

5.5. The Federal University of Amazonas will consult the CadÚnico database to verify the veracity of the information provided by the candidate.

5.6. A false declaration will subject the candidate to the penalties provided for by law, also applying the provisions of the single paragraph of Article 10 of Decree No. 83.936, of 06/09/1979.

5.7. The application for exemption from the registration fee of the candidate who omits or provides untrue information will be disregarded.

5.8. Requests for exemption from the registration fee will not be accepted via fax, postal mail, or if extemporaneous.

5.9. The foreign candidate who does not have a CPF number may submit the application for exemption from registration to the program in the period **18/03/2024 to 20/03/2024**.

5.10. The request for exemption from the registration fee of the candidate who, simultaneously, has made the payment of the registration fee will be disregarded.

5.11. The list of candidates with exemption requests that have been granted will be made available on the webpage intended for the notification as of **25/03/2024**.

5.12. The list of candidates with rejected exemption requests, accompanied by the motives, will be disclosed simultaneously with those requests that were granted, on the same webpage.

5.13. No appeal will be allowed against the rejection of the application for exemption from the registration fee. Any candidate who has their application rejected must perform the procedure provided in item 4 of this notification to effect their registration.

6. NECESSARY REQUIREMENTS

6.1. Be a holder of a doctor's degree for at least 2 (two) years;

6.2. Be a professor or researcher of recognized competence in their area of expertise;

6.3. Have relevant scientific production in the last 5 (five) years, counted starting from the date of registration backwards;

6.4. Have not been employed in the last twenty-four (24) months under the Law 8.745 of 09/12/1993.

7. WORKING CONDITIONS AND REMUNERATION:

7.1. The employee will be subject to the working period of **40 (forty) hours per week**, without or with **exclusive service** as described in Attachment II.

7.2. The salary of the visiting professor will be established based on the qualification and experience of the candidate, observing the correspondence with the remuneration ranges of the Federal Teaching Careers and Positions Plan, Law No. 12,772 of 12/28/2012, plus the remuneration for the PhD (Attachment III of Law No. 12,772, of 12/28/2012) and food allowance of R\$658.00 (six hundred and fifty-eight Reais), which is set out in the following classes:

- 7.2.1. Class C (Adjunct)
- 7.2.2. Class C (Adjunct);
- 7.2.3. Class D (Associate)
- 7.2.4. Class E (Full).

7.3. The values of the salaries for each class that is specified in item 7.2 correspond to the following table:

7.3.1. Non-exclusive service of 40 hours per week

7.3.2.

Class	Level	Basic salary	Adjusted according to qualification level	Food allowance	TOTAL
Class C – Adjunct	01	R\$ 4,187.67	R\$ 3,611.87	R\$ 658.00	R\$ 8,457.47
Class D – Associate	01	R\$ 5,888.20	R\$ 5,078.57	R\$ 658.00	R\$ 11,624.77
Class E – Full	SINGLE	R\$ 7,285.77	R\$ 6,283.97	R\$ 658.00	R\$ 14,227.74

7.3.3. Exclusive service of 40 hours per week

Class	Level	Basic salary	Adjusted according to qualification level	Food allowance	TOTAL
Class C – Adjunct	01	R\$ 5,982.39	R\$ 6,879.74	R\$ 658.00	R\$ 13,520.13
Class D – Associate	01	R\$ 8,411.72	R\$ 9,673.47	R\$ 658.00	R\$ 18,743.19
Class E – Full	SINGLE	R\$ 10,408.24	R\$ 11,969.48	R\$ 658.00	R\$ 23,035.72

7.4. The Brazilian or foreign visiting professor will be considered in the following classes:

7.4.1. *C (Adjunct)* if they meet the requirements of qualification and experience equivalent to that of a permanent professor of the post-graduate program of the Federal University of Amazonas to which you will be linked;

7.4.2. *D (Associate)* if they meet the qualification and experience requirements equivalent to that of a research productivity fellow of the National Council for Scientific and Technological Development, of the area of the post-graduate program to which the visiting professor will be linked, levels 2, 1C or 1D;

7.4.3. *E (Full)* if they meet the qualification and experience requirements equivalent to that of a research productivity fellow of the National Council for Scientific and Technological Development, of the area of the post-graduate program to which the visiting professor will be linked, levels 1A and 1B;

7.5. The Coordination of the post-graduate course to which the visiting professor will be linked will have the responsibility, with the qualified approval of at least 75% (seventy-five percent) of its members, to classify the

selected candidates according to the classes described in item 7, of forwarding its opinion on the candidates to PROGESP for the necessary arrangements.

8. THE SELECTION PROCESS

8.1. The selection process will be carried out in strict compliance with Resolution No. 022/2021-CONSEPE, of 13/10/2021, available at the electronic address [Portarias e Normas \(ufam.edu.br\)](http://Portarias e Normas (ufam.edu.br)) and [Deliberações \(ufam.edu.br\)](http://Deliberações (ufam.edu.br)) according to the schedule in Attachment IV (Schedule).

8.2. The selection process will consist of a single phase, of a classificatory and eliminatory nature, with the two evaluation items being:

8.2.1. Analysis of the titles of the candidate's intellectual production and academic activities that are correlated to the area of knowledge and the CAPES area of the post-graduate program that requested the hiring of the professor. For the purpose of obtaining the score, when analyzing the titles, the scoring scales of Attachment V - analysis of titles will be considered. The grades of the 3 items I - Academic Qualification (NAQ), II - Intellectual Production in the area of selection (NIP) and III - Academic Activity (NAA) will be computed.

8.2.2. Evaluation of the Individual Work Plan (according to criteria established in Attachment VI), taking into account its relationship with the activities of the post-graduate program and potential contribution to the strengthening of the post-graduate program.

8.3. The candidate who obtains a work plan score of less than 7 (seven) points will be considered disqualified.

8.4. The candidate who obtains a score of 0 (zero) in the for the items provided for in 8.2.1 will be disqualified.

9. The scores for items II - Intellectual Production in the selection area and III - Academic Activity (Attachment V), will be assigned as follows: If the highest number of points obtained in each of items II and III is less than 10 (ten points), the number of points obtained by each candidate is assigned as the score. If the highest number of points obtained in each of items II and III is greater than 10 (ten points), a score of 10 is assigned to the candidate who obtained the highest score in each of the items and, using the score and grade of that candidate as a reference, the other candidates are assigned a grade proportional to their respective score.

10. The final result of the single phase will be made up of the arithmetic mean obtained via the sum of the scores of the analysis of the titles and the evaluation of the individual work plan:

$$FA: ((NAQ+NIP+NAA/3)+NIWP)/2$$

FA: Final Average

NAQ: Academic Qualification score

NIP: Intellectual Production score

NAA: Academic Activities score

NIWP: Individual Work Plan score

11. In case of a tie, the following tiebreaker criteria will be used to classify the candidates, in the order presented as follows: I - the candidate with the highest NIWP, II - candidate with the highest NIP.

11. APPEAL PERIOD

The interested candidate will have up to 48 (forty-eight) hours to appeal against the final result to be published in the public notification, via the [PROPESP \(ufam.edu.br\)](http://PROPESP (ufam.edu.br)) intended for the notification on the PROPESP page.

12. APPROVAL OF THE FINAL RESULT AND THE EMPLOYMENT CONTRACT

12.1. The candidate who achieves the highest score among those approved after the definitive homologation, carried out by the Chamber of Research and Post-graduate studies (CPPG) and the Teaching, Research and Extension Council (CONSEPE) of UFAM, will be summoned to present their documents.

12.2. Additionally, the selected candidate will be summoned to sign the contract via the email stated in the registration form, which does not exempt the candidate from the responsibility of accompanying the publication of the final result of the selection process in the Official Federal Gazette. The list of documents necessary for the execution of the contract will be requested by the Department of Staff Development - DPP PROGESP.

12.3. Approved foreign visiting professors must submit a sworn translation of the PhD to the Department of Staff Development - DDP/PROGESP/UFAM within a maximum period of 90 days, starting from the date of publication of the homologation of the final result in the Official Federal Gazette, so that it composes the documentation to be sent to the MTE - Ministry of Labor and Employment, through the Immigration Management and Control System – MIGRANTEWEB, for analysis of the application for work authorization by the General Immigration Coordination Department, the work authorization and subsequent signing of the contract being linked to the receipt of this document.

12.3.1. In the case of a foreign visiting professor or Brazilian who is a non-resident in Brazil, whose PhD has been obtained abroad, the validation of the degree, required in Attachment I, will be certified by the coordination of the post-graduate course offering the vacancy, dispensing with the process of revalidation/recognition of the diploma in Brazil.

12.4. The contract will have an initial term of:

I – 12 (twelve) months, extendable for up to 12 (twelve) months, for a visiting professor of Brazilian nationality; and

II – 24 (twenty-four) months, extendable for up to 24 (twenty-four) months, for a foreign visiting professor.

12.4.1. The renewal of the contract will depend on approval related to a performance evaluation and institutional interest.

12.5. The hiring, pursuant to Article 6 of Law No. 8,745/1993, of employees of the direct or indirect administration of the federation, the states, the Federal District and the municipalities, as well as employees of its subsidiaries, is prohibited.

12.6. Candidates who have already been hired on the basis of Law No. 8,745/93, including as a Substitute or visiting professor by the Federal University of Amazonas or by any other Federal Institution of Higher Education, may not be hired again on the basis of this law, before 24 (twenty-four) months have elapsed, starting from the termination of their previous contract.

12.7. The employee will carry out his activities with the post-graduate program applied to the selection process, for **40 hours a week with or without exclusive service as per Attachment II**, complying with the work plan presented at the time of registration.

12.7.1. Foreign applicants who do not have a permanent visa or who have not obtained temporary or permanent residence because they come from one of the Mercosul countries, Bolivia or Chile (Arts. 4 and 5 of Decree No. 6.975/2009), will be requested, by the University of Amazonas Foundation, authorization for work via the Ministry of Labor and Employment and the respective concession under the condition of a temporary visa. The application fee for the work permit will be at the expense of the applicant. The foreigner must choose the country where he will receive the visa. After receiving the visa in the chosen country, the foreigner will have up to 15 days from his entry into Brazil to present it to the Department Staff Development of the Federal University of Amazonas. Only after said presentation will the foreigner be referred to the post-graduate program to which they applied for work via the selection process for the beginning of their activities.

12.7.2. The foreigner admitted as a temporary worker, under contract, may only exercise activity with the entity by which he was hired, at the time of granting the visa, unless expressly authorized by the Ministry of Justice, after recommendations from the Ministry of Labor and Employment.

12.8. The employee will be subject to the rules of accumulation of positions, jobs and functions provided for in the Federal Constitution, in the opinion GQ No. 145, of the Attorney General of the Union, of 30/03/1998, published in the Official Federal Gazette of 01/04/1998, and in the other regulations that govern the matter.

13. RESTRICTIONS AND TERMINATION OF THE CONTRACT:

13.1. The hired candidate will not be able to:

- I. Receive assignments, functions or responsibilities not provided for in the respective contract;
- II. Be appointed or designated, even if in a precarious capacity or as a substitute, to the exercise of a position in a commission or position of trust;
- III. Be rehired before twenty-four (24) months have elapsed from the termination of their previous contract.
- IV. Exercise professional activity for another public body, private company or individual, except for the one that has hired him at the time of granting the visa, unless expressly authorized by the Ministry of Justice, after recommendations by the Ministry of Labor (applies exclusively to foreign candidates with a temporary visa).

13.2. The signed contract will expire:

- I. Automatically, at the end of the initial term, without the right to any compensation, except for the possibility of extension, observing the limit provided for in sub-item 10.3 of this notification;
- II. On the initiative of the employee;
- III. Termination or completion of the project, as defined by the issuer of the contract;
- IV. On the initiative of UFAM, if the employee does not present skills for the position. In such situations, disciplinary administrative proceedings will be instituted, granting him/her an ample right of defense.

13.2.1. The termination of the contract, in the cases of items II and III, will be communicated at least thirty (30) days in advance. The termination of the contract, at the initiative of the Federal University of Amazonas, resulting from administrative convenience, will result in the payment to the employee of compensation corresponding to half of what would be due to him for the remainder of the contract.

14. FINAL PROVISIONS:

14.1. A validity period of **1 (one) year** is established for this selection process, as of the publication of its final result in the Official Federal Gazette, and may be extended, for the same period, at the discretion of the Administration.

14.2. The resolutions of the Federal University of Amazonas that govern this simplified selection process, as well as the entire content of this notification, will be available for consultation and printing via the website [PROPESP \(ufam.edu.br\)](http://PROPESP.ufam.edu.br).

14.3. The present notification may be canceled or modified, in whole or in part, at any time, provided that supervening reasons so determine, without this generating rights or obligations in relation to the interested parties. In case of exclusion of a vacancy in which there is a registered candidate, UFAM will provide the necessary means for the affected candidate to request a refund of the amount paid for registration.

14.4. The candidate must accompany the publications of any corrections and informative notes related to this notification on the PROPESP website <https://propesp.ufam.edu.br/>.

14.5. All candidates who adhere to this notification are informed that requests for copies of written evidence requested by competing candidates may be granted, including with the respective corrections of the exam boards, when the requirements provided for in Law No. 12.527/2011 and in Decree No. 7.724/12 are met.

Manaus, 16th February 2024.

Prof. Dr. Adriana Malheiro Alle Marie
Office of the Dean for Research and Postgraduate Studies/UFAM

ATTACHMENT I - LIST OF VACANCIES

UFAM Post-graduate Program	Field of knowledge	Minimum requirement	Line of research	Specific area of expertise and professional profile
Post-graduate Program in Tropical Agronomy	Phytotechnics - Plant Production	PhD in Agronomy/Phytotechnics	Development and production of tropical crops	Professional working in the area of management and production of tropical crops.
Post-graduate Program in Social Anthropology	Anthropology	PhD in Anthropology	Indigenous Ethnology, Cosmopolitics and Amazonian landscapes; Indigenous peoples and traditional peoples, territorialities, politics and social movements; Anthropology of gender, sexualities and feminisms; The city and the urban environment, migrations, patrimonies and territories	Professionals who work in at least one or at the interface between the following themes: Indigenous peoples and traditional communities; afro-Latin American anthropology; gender and sexuality studies; anthropology and ecology; anthropology and art; migration and diaspora. Preferably, but not exclusively, with experience in the Amazon region.
Post-graduate Program in Biotechnology	Genetic Engineering and Molecular Biology	PhD in Science, in Biology (Biological Sciences) or Biotechnology	Genetic engineering and biotechnology and molecular biology	Professional with extensive experience in teaching and mentoring in molecular biology and genetic engineering, especially at the graduate level, and also of research and development activities that are reflected in scientific technical publications and patents granted for inventions.
Post-graduate Program in Environmental Sciences	Environmental Sciences	PhD in Environmental Sciences	Environment and socio-biodiversity	Professionals working in the social and environmental areas.
Post-graduate Program in Animal Science and Fisheries Resources	Animal Science	PhD in Ruminant Production or Nutrition	Nutrition and production of monogastric animals and ruminants	Professional working in the area of production/nutrition of ruminants and proven performance in research and teaching in the area of production/nutrition of ruminants.
Post-graduate Program in Materials Science and Engineering	Materials	PhD in Materials Engineering, Materials Science and Engineering, Physics, Chemistry or in the area of Engineering and CAPES multidisciplinary areas	New materials, nanostructured materials and/or physical and mechanical properties of materials	Professional with proven scientific experience in the area of materials knowledge and autonomy to develop their research and who works in preparation, characterization, processing and application of new materials.
Post-graduate Program in Science and Technology for Amazonian Resources	Environmental Sciences	PhD in Humanities or Social and Applied Sciences or Biological or Agrarian or Exact and Earth sciences	Research Line 1: Agro-bioenergy, analysis and management of Amazonian resources; Research Line 2: Chemical, biological prospecting and development of bioactive substances; Research Line 3: Amazonian resources and socio-environmental development	Professional working in research related to one of the three research lines of the PPGCTRA.
Post-graduate Program in Environmental Sciences and Sustainability in the Amazon	Social Sciences	PhD in Social Sciences and Humanities	Socio-environmental dynamics	Desirable profile full professor level and minimum of 10 years since acquiring PhD and having taught Environmental Epistemology. Professor with a national or international professorship in Social and Environmental Sciences.
Post-graduate Program in Pharmaceutical Sciences	Pharmacy	PhD in Pharmacy, Pharmaceutical Sciences, Pharmaceutical Innovation, Nanotechnology, Biotechnology, Health Sciences, Chemistry of Natural Products, Pharmacology, Biochemistry, Immunology, Toxicology, Biological Sciences I, II and III by CAPES	Proven experience in the development of scientific projects that fall within at least one of the research lines of the program: Line 1 – Evaluation of the efficacy and safety of inputs and pharmaceutical and cosmetic products; Line 2 - Development, evaluation of the quality and use of inputs and pharmaceutical and cosmetic products and Line – 3 Investigation of laboratory and molecular markers in diseases prevalent in the Amazon	Professional working at the frontier of knowledge in the field of pharmacy; chemistry or biotechnology. To meet the demand of the position, the candidate must present in his work plan proposals for collaboration in the projects developed by PPGCF, as well as the proposal of at least one discipline to be offered in the program.

Carliana Machado Freire Gomes

Poder Executivo Federal
Ministério da Educação
Universidade Federal do Amazonas
Pró-Reitoria de Pesquisa e Pós-Graduação

Post-graduate Program in Forest and Environmental Sciences	Wood Technology in Tropical Forests	PhD in Forestry Engineering	Industrialization of forest products: sawmill, drying of wood and wood panels	Professional profile to work as a visiting professor in the post-graduate program in Forest and Environmental Sciences in the research line Management and Technology of Forest Resources to work in teaching, research and extension with Dendrochronology of commercial forest species and applications for sustainable forest management.
Post-graduate Program in Surgery	Biological Sciences, Pharmaceutical Sciences, Medical Sciences	PhD in Biological Sciences, Pharmaceutical Sciences, Medicine I, II and III CAPES	Medical sciences	Professional with experience in teaching and research in innovative use of techniques, and studies of the functional, metabolic, biochemical and immunological repercussions of the use of medicines, biomaterials and nutrients in patients undergoing surgical procedures or organizational aspects of health services, with attention to the design and use of innovative technologies and health programs, metrically evaluating the impact on the quality of life of the surgical patient.
Post-graduate Program in Law	Law	PhD or professor of Law	Area of expertise: Constitutionalism and rights in the Amazon	Professional profile: Excellence and impact in research; potential for the development and strengthening of existing research groups and research projects in the Post-graduate Program; potential for the development of short- and medium-term initiatives aimed at the insertion and social impact of the Post-graduate Program; potential for the development of initiatives aimed at inserting the Post-graduate Program in the scientific context of the Brazilian Amazon and Latin America.
Post-graduate Program in Design	Digital Design	PhD in Design, Design and Multimedia, Games and Digital Media	Design, communication and visual project management	Professional working at the frontier of knowledge in the area of Digital Design.
Post-graduate Program in Education	Education	PhD in Education	Research in Education	Professional with scientific production in the area of Education and teaching experience in stricto sensu post-graduation who works in research in Education; Research in Education; Research Methodologies in Education.
Post-graduate Program in Nursing - UFAM/UEPA	Nursing	PhD in Nursing	Healthcare and nursing education in the Amazon Professional trained in nursing. Theoretical, ethical-political and methodological bases of education and care. Technologies for education and healthcare and nursing in the sociocultural context of the Amazon and the Unified Health System	Researcher with experience in the area of nursing, expertise in qualitative research, with the ability to enhance the development of projects that seek funding from funding agencies, international collaborations and the productivity of researchers. In addition to being involved in the following themes: theoretical and philosophical bases of healthcare, nursing education, nursing care, higher education and professional education.
Post-graduate Program in Nursing in the Amazon	Nursing and/or Health Sciences and/or medical practices	PhD in Nursing	Research line: Nursing Management in the Amazon	Researcher with experience in the field of nursing, in qualitative and quantitative research, expertise in developing projects that seek funding from funding agencies, researcher with experience in research development in national and international partnerships. Experience in the following subjects: nursing and health management, public policies.
Post-graduate Program in Production Engineering	Production Management and Emerging Technologies (Ind. 4.0)	PhD in Production Engineering	Emerging technologies applied to organizational processes	Professional who works in the development and application of advanced solutions in organizational processes, combining the different production and operational processes with emerging technologies, namely Industry 4.0 and its evolutions.
Post-graduate Program in Electrical Engineering	Electrical Engineering	PhD in Electrical Engineering or Engineering CAPES. Preferably with proven participation in a post-graduate program as a permanent professor	Activity in at least one of the following research lines: Microelectronics, software engineering, industrial automation, biomedical engineering, electrical power systems, renewable energy sources, photonics, computer vision, digital signal processing	Professional who works at the frontier of knowledge in at least one of the aforementioned lines of research.
Post-graduate Program in Human Movement Sciences	Biodynamics of Human Movement	Bachelor's degree in Physiotherapy and with a PhD in one of the following areas: Physiotherapy, Rehabilitation Science, Human Movement Science, Human Movement Sciences, Health Science, Public Health, Medical Sciences.	Functional assessment and recovery	Professional who works with methods and techniques of evaluation, diagnosis and/or interventions for the promotion of health and functional recovery in health dysfunctions.

Celiana Mackenzie

Poder Executivo Federal
Ministério da Educação
Universidade Federal do Amazonas
Pró-Reitoria de Pesquisa e Pós-Graduação

Post-graduate Program in Science and Humanities Teaching	Teaching	Bachelor's degree in the Exact Sciences, with a PhD in teaching or in mathematical education or a PhD in Science and Mathematics Teaching or in Science Education	Research Line 2: Fundamentals and methodologies for teaching Natural Sciences and Mathematics	Primarily professionals with academic experience and proven competence in the curriculum of action in the area of training of mathematics teachers and/or mathematics teaching.
Post-graduate Program in Science and Mathematics Teaching	Science and Mathematics Teaching (CAPES area 46)	PhD in Science and Mathematics Teaching, or Science Teaching, or Science Education, or Science and Technology Education	One or more of the research lines of the PPGEcIM/UFAM: (i) Training of science and mathematics teachers; (ii) Teaching-learning processes in science and mathematics; (iii) Technologies for education, dissemination and teaching of science and mathematics	Professional with relevant production (upper strata of Qualis/CAPES) and adhering to the research lines of the PPGEcIM, availability of 40 hours per week with exclusive dedication and minimum experience of 2 years in research. The individual work plan should clearly present the potential contribution to strengthening the research lines of the program, in line with the local infrastructure.
Post-graduate Program in Physics	Physics	PhD in the fields of Physics or Materials Science and Engineering	Condensed matter physics or atomic and molecular physics	Professional with scientific experience compatible with the lines of research developed by the Post-graduate Program in Physics.
Post-graduate Program in Geosciences	Geosciences	PhD in Geosciences	Geological and (paleo) environmental processes of the lithosphere and hydrosphere systems in the western Amazon	Professional working in Geochemistry.
Post-graduate Program in Geography	Geography	Bachelor', Master's and PhD in Geography	Space, territory and culture in the Amazon	Professional working in the field of space, territory, culture and education in Geography.
Post-graduate Program in History	History	Bachelor's degree in History, PhD in History or in the area of Human Sciences CAPES	Social and cultural history	Professional working in the field of History.
Post-graduate Program in Basic and Applied Immunology	Basic and Applied Immunology	PhD in Biological Sciences (I, II and III), Medicine II and multidisciplinary (Biotechnology)	Immunology applied to human and animal diseases; immunochemistry and immunometabolism; immune action of medicines and biomolecules from Amazonian biodiversity; development of immunobiological products and processes; genomics, immunogenetics and epidemiology of infectious and inflammatory diseases; clinical research and data analysis in immunology	Professional working in teaching, research and extension activities in the Post-graduate Program in Basic and Applied Immunology; professional with experience in the development and coordination of institutional research projects, mentoring of scientific initiation, master's and PhD students, relevant scientific production in the last 5 years (>500 points in the area of Biological Sciences III), classes in Master's and PhD courses, preferably with experience in activities abroad and English language proficiency.
Post-graduate Program in Information Technology	Computer Science	PhD in Computing or related fields	The lines of research are all those that have computing as a means or as an end, which can be summarized in three parts: (i) computational systems; (ii) software, interaction and applications; and (iii) computational intelligence and data science	Professor and researcher with relevant publications in the last five years. Preferably, a professional who has collaborated with PPGI researchers.
Post-graduate Program in Languages	Languages/Linguistics	PhD in Arts/Linguistics/Applied Linguistics or in Education	Linguistic studies	Professor or researcher with outstanding scientific production in the area of language studies focused on the social and linguistic practices of indigenous peoples, with emphasis on linguistic and educational policies and promotion of Amazonian indigenous languages.
Post-graduate Program in Mathematics	Mathematics	PhD in Mathematics or PhD in Science with a thesis in Mathematics	Be active in at least one of the lines of research below: Algebra Analysis Geometry Statistics Optimization	Group theory, Theory of representations Algebraic geometry Functional analysis Elliptic and evolution differential equations Geometry of subvarieties Geometric analysis
Post-graduate Program in Dentistry	Dentistry	PhD in Health Sciences according to CNPQ classification (4.00.00.00-1)	Clinical trials, observational studies and systematic reviews with meta-analysis	Professional who works at the frontier of knowledge in the areas of the complete development and coordination of clinical research projects, observational studies and systematic reviews with meta-analysis, in addition to proficiency in the English language.
Post-graduate Program in Psychology	Psychology	PhD in Psychology or Education or Collective Health/Public Health or Health Sciences or Anthropology or Environmental Sciences or Society and Culture or Neurosciences	Psychosocial processes and/or psychological processes and health	Preferably professionals with experience in coordinating projects with funding and/or editing a scientific journal, and/or in managing post-graduate programs.

Universidade Federal do Amazonas
Pró-Reitoria de Pesquisa e Pós-Graduação**

Post-graduate Program in Chemistry	Chemistry	PhD in Chemistry or Physics or PhD in Materials Science or Engineering or Chemical Engineering or Biotechnology or Pharmacy	1. Teaching of chemistry; 2. Analytical methods and environmental studies; 3. Natural products and biomolecules; 4. Chemistry of materials and Interfaces; 5. Transformations of organic molecules	Professional with da PhD and availability of 40 hours a week with exclusive dedication and minimum experience in research of 2 years. The individual work plan should be aligned with one of the following lines of research of the PPGQ: 1. Teaching chemistry; 2. Analytical methods and environmental studies; 3. Natural products and biomolecules; 4. Chemistry of materials and interfaces; 5. Transformations of organic molecules. The plan should clearly present the potential to contribute to the strengthening of the research lines of the PPGQ, in line with the local infrastructure.
Post-graduate Program in Social Work and Sustainability in the Amazon	Social Services	PhD in Social Services or Social Sciences or Sociology or Public Policy or Social Policy or Environmental Sciences or Society and Culture in the Amazon or Economics or Psychology or History	Social services, public policies, labor and sustainability in the Amazon	Professional with experience in teaching and research with topics related to the focal area of the program
Post-graduate Program in Society and Culture in the Amazon	Interdisciplinary in Humanities	PhD in any of the following major areas: Humanities; Applied Social Sciences; Languages and Arts	Socio-cultural processes in the Amazon	Proven experience in interdisciplinary research on the Amazon with at least 2 publications in journals classified in the upper strata (Qualis A1 or A2) in the last five years.
Post-graduate Program in Zoology	Biodiversity	PhD in Zoology and Biological Sciences	Zoology	Professional with research experience in Zoology, primarily with integrative taxonomy and phylogenetic systematics.

ATTACHMENT V - ANALYSIS OF QUALIFICATIONS - SCORING TABLE

I. Academic Qualification (NAQ)

Qualification	Score
PhD in the specific area of the selection process*	10 points

*Meet the minimum qualification requirement specified in Attachment I

For the items NIP and NAA, the works and/or activities of the last 5 (five years) from the date of publication of the notification will be considered.

II. Intellectual production in the field of the vacancy (NIP)

Type of work	Unit score	
Papers published or accepted in journals classified in the Qualis CAPES area*	A1 and A2	1 point
	A3 and A4	0.5 points
	B1 and B2	0.25 points
	B3 and B4	0.15 points
Books published in the field of knowledge	Full book	1 point (max 20 points)
	Chapter	0.25 points (max 10 points)
	Collection	0.15 points (max 6 points)
Patents	Registered	0.5 points
	Approved	1 point
Editor of a journal classified in the Qualis CAPES area of the PGP	1 point	
Reviewer of a journal classified in the Qualis CAPES area of the PGP	0.5 points	
Study time and/or work experience abroad	0.5 points/year	

* Qualis Periodicals - Ranking Event: Journal Ranking for the quadrennial 2017-2020 (<https://sucupira.capes.gov.br/sucupira/>).

III – Academic Activity (NAA)

Type of activity	Unit score	
Teaching (per discipline taught)	PhD	1 point
	Masters	0.75 points
	Specialization	0.5 points
	Undergraduate	0.1 points
Completed co-mentorships (per co-mentee)	PhD	2 points
	Masters	1 points
	Specialization	0.5 point
	Undergraduates: end of course paper, monograph, scientific initiation PIBIC, PIBID, PIBEX or similar	0.25 points
Completed co-mentorships (per co-mentee)	PhD	1 point
	Masters	0.5 points
	Specialization	0.25 points
	Undergraduates: end of course paper, monograph, scientific initiation PIBIC, PIBID, PIBEX or similar	0.0125 points
Participation in examining board (per	PhD thesis defense	1 points

Carliana Machado Freire Gomes

board)	PhD qualification panel	1 points
	Master's dissertation panel	0.5 points
	Master's qualification panel	0.5 points
	Selection panel for admission to the stricto sensu post-graduate course	0.5 points
	Final presentation panel for the undergraduate course (monograph, end of course paper or similar)	0.25 points
	Panel for selection and/or evaluation of research and extension projects of undergraduate students	0.0125 points
Research project (with financial resources)	Coordination	2 points
	Participation	0.5 points

Cristiana Machado Freire

**ATTACHMENT VI - CRITERIA FOR THE EVALUATION OF THE
INDIVIDUAL WORK PLAN**

Criteria	Score
a) Clarity in the writing, adequacy of the form, quality, relevance and articulation of the individual work plan with the line of research and area of action specified in the notification of the vacancy sought.	From 0 (zero) to 2 (two) points
b) Potential impact of the proposed activities on increasing the quality of the scientific production of the UFAM post-graduate course according to the profile described in Attachment I.	From 0 (zero) to 2 (two) points
c) Feasibility of the work plan, as well as its compatibility with the program's purpose and with the profile described in Attachment I.	From 0 (zero) to 2 (two) points
d) Relevance and insertion of the work plan in the teaching and extension activities of post-graduate studies according to the profile described in Attachment I	From 0 (zero) to 2 (two) points
e) Contribution of each proposed activity to the internationalization of UFAM's stricto sensu post-graduate course, as well as the ability to establish links, networks and interinstitutional research partnerships according to the profile described in Attachment I.	From 0 (zero) to 2 (two) points
Final score	From 0 (zero) to 10 (ten) points

Christiana Machado Almeida
